

# Artificial Intelligence (“AI”) in Healthcare

**LeadingAge Member Exclusive Webinar!**

## Healing with Algorithms: Exploring the impact “AI” will have on Healthcare in America

 **WEDNESDAY, JANUARY 17**

 **11:00 AM - 12:00 PM**

 **ZOOM**

*Presented by Cona Elder Law’s Health Care Reimbursement and Recovery Practice Group*

*Ken Kern, Esq., Senior Partner*

*Kyle Stefurak, Esq., Senior Associate*

Join us for a conversation on AI’s ability to:

- **Analyze** vast databases will result in faster more accurate diagnosis.
- **Create** tailored care plans for residents
- **Streamline** SNF administrative processes
- **Allow** SNF’s to monitor a resident’s health and physical state in real-time
- **Alleviate** feelings of loneliness and boredom in residents through communication
- **Review** the legal and ethical implications of implementing AI in a skilled nursing facility including compliance with the Health Insurance Portability and Accountability Act (HIPAA).
