Aware Prepare Update

NEW YORK STATE | **Department of Health** | Office of Health Emergency Preparedness

November 2021

Welcome to the **November 2021** issue of the Aware Prepare (AP) Update. The AP is your bi-monthly guide to upcoming trainings related to preparedness, readiness and response. These trainings may be provided in one or more of the following formats, including: live webcasts, webinars and in-person training; archived webcasts, webinars and on demand eLearning. Questions or submissions, email: edlearn@health.ny.gov

Calendar List of Live Events	Provider	Air Date	Page

NYSDOH Commerce Training Institute (CTI) Courses

CTI-100

Introduction to the Health Commerce System

Friday, November 5, 2021, 9-10am
Wednesday, December 1, 2021, 2-3pm

Provider: NYSDOH Commerce Training Institute
Average Completion Time: 1 hr
Continuing Education credits: No
Enroll in LMS Course: CTI-100

The redesigned Health Commerce System (HCS) became available in March 2010. The HIN and HPN were recreated as the Health Commerce System portal, or HCS. There is no longer a separation between the HPN and HIN.

Objectives:
- Identify the major elements of the HCS architecture
- Identify the features of the HCS
- Demonstrate strategies to customize the portal for your own use.

CTI-120

Integrated Data Reporting in HERDS v.3

Tuesday, November 16, 2-3pm
Wednesday, December 15, 2021, 9-10am

Provider: NYSDOH Commerce Training Institute
Webinar: Yes
Average Completion Time: 1 hr
Continuing Education credits: No
Enroll in LMS Course: CTI-120

This course provides a solid foundation for adult care facilities, home health agencies, hospices, hospitals, LHCSAs, nursing homes and extension clinics to report data using the HERDS v.3 application.
The course will begin with a look at how to obtain access to HERDS and how facilities will be notified when there are activities to be completed. Learners will then be provided demonstration of the new reporting platform. The session concludes with a brief overview of the pre-selected reports available from the application. This course is presented in a one-hour session via WebEx Training Center.
Objectives:
• Locate and modify the person record.
• Explain the importance of the person record in relation to HERDS.
• Demonstrate the ability to review assigned roles.• Locate and access HERDS.
• Describe the overall structure of HERDS activities.

CTI-200

Communications Directory Certification

Monday, November 15, 2021, 1-2:30pm
Tuesday, December 7, 2021, 9:30-11am

Provider: NYSDOH Commerce Training Institute
Webinar: Yes
Average Completion Time: 1.5 hrs
Continuing Education credits: No
Enroll in LMS Course: CTI-200

This course provides a comprehensive review of the Health Commerce System Communications Directory, the underlying records that make up the directory, and the tools all HCS users can use to access the directory. This two-hour course will begin by examining the structure of the directory and differentiating between the actual contact information records stored for each person in the directory, and the facilities and roles those records can be associated with. Once the structure of the directory has been examined learners will review and have an opportunity to practice with the applications used to access the information stored in the directory. At the conclusion of this course learners will be able to:
• List the components of the Communications Directory
• Summarize how the components are related and work together
• Summarize the HCS emergency call down procedure, describing the role the Communications Directory plays

NYSDOH Commerce Training Institute (CTI) Courses continued

CTI-300

Integrated Health Alerting and Notification System (IHANS) Training & Certification

Thursday, November 18, 2021, 1-4pm
Friday, December 17, 2021, 9am-12pm

Provider: NYSDOH Commerce Training Institute
Webinar: Yes
Average Completion Time: 3 hrs
Enroll in LMS Course: CTI-300

This course covers all information necessary to begin the certification process for using the Integrated Health Alerting & Notification System. Participants will receive hands on practice with the tools and be offered an opportunity to complete certification.

Users who wish to complete certification are strongly encourage to send an advance message to any audience they may broadcast to as part of the certification process. Typically course participants broadcast a sample notification to their HIN Coordinators (LHDs) or Directory Coordinators (NYSDOH).

CTI-502

New York State Evacuation of Facilities in Disasters Systems (eFINDS) version 3.0

Tuesday, November 23, 2021, 9-10am
Monday, December 20, 2021, 2-3pm

Provider: NYSDOH Commerce Training Institute
Webinar: Yes
Average Completion Time: 1 hr
Enroll in LMS Course: CTI-502

The New York State Evacuation of Facilities in Disasters Systems (eFINDS) is the patient/resident tracking application housed on the Health Commerce System (HCS).
This course provides a solid foundation for registering and updating patient/resident location information during an incident or event, such as a storm, flood, non-natural incident or practice exercise/drill.
Course participants will be provided a demonstration of the eFINDS application including: eFINDS Data Reporter and eFINDS Data Administrator role permissions; how to register a patient/ resident with a scanner and without; use a spreadsheet to register multiple patient/residents; update patient/resident tracking information as an evacuating facility, and as a receiving facility. The session concludes with hands-on exercises.

Public Health Communications COLLABORATIVE

Communications Resources
FOR PUBLIC HEALTH OFFICIALS

Communications Resources
For Public Health Professionals

The Public Health Communications Collaborative (PHCC) was formed in 2020 to coordinate and amplify public health messaging on COVID-19 and increase Americans' confidence in guidance from the Centers for Disease Control and Prevention (CDC) and state and local public health officials.

https://publichealthcollaborative.org/

The vaccines work. The COVID-19 vaccines continue to be remarkably effective in reducing risk of severe disease, hospitalization, and death, including against the delta variant. CDC data show that in August 2021, the risk of dying from COVID-19 in the U.S. was more than 11 times greater for unvaccinated people than for fully vaccinated people.

Booster doses are recommended for some groups of people.
- Some Pfizer and Moderna recipients should get a booster at least six months after their second shot – people age 65 and older, and adults at high risk due to medical conditions or exposure at their jobs.
- All Johnson & Johnson recipients age 18 and older should get a booster at least two months after their initial shot.
- Immunocompromised people who received the Pfizer or Moderna vaccine should get an additional dose at least 28 days after their second dose.

The CDC's clinical guidance advises people to get the same booster as their initial vaccine, but allows people to mix and match (i.e. get a different COVID-19 booster than their initial vaccine) if they have a different preference.

As the science and the virus evolve, so do public health recommendations. Booster doses are common for many vaccines. The scientists and medical experts who developed the COVID-19 vaccines continue to closely watch for signs of waning immunity, how well the vaccines protect against new mutations of the virus, and how that data differ across age groups and risk factors.

Visit the Answers to Tough Questions on COVID-19 boosters for messaging guidance that helps answer questions such as: "Can I mix-and-match my COVID-19 vaccine and booster?" and "I want to get a booster dose, but I'm not eligible yet. Why not? Can I get one anyway?"

Who should get a COVID-19 booster dose?

→ **Some** Pfizer and Moderna recipients, at least 6 months after their second dose
- ✓ Age 65 and older
- ✓ Age 50-65 at high risk of severe COVID-19
- ✓ Age 18+ at high risk due to medical conditions or job exposure may get a booster after assessing individual risk

→ **All** Johnson & Johnson recipients age 18 and older, at least 2 months after their initial shot.

As of 10/22/2021

RECORDED PEDIATRIC WEBINAR SERIES AVAILABLE - WRHEPC Pediatric Emergency Preparedness Seminar 2020 The Pediatric Emergency Preparedness Seminar Series consists of 6 recorded webinar sessions. You can **register for the entire program HERE**

•**Session 1** (recorded on 9/15/2020 – 1hr):
Assessing & Managing Suicide Risk in Primary Care
Presenter: David Kaye, MD
Enroll in LMS Course: WRHEPC-PEDSvSERIES-S1REC

•**Session 2** (recorded 9/29/2020 – 1hr):
Pediatric Burn Treatment
Presenter: Kathryn Bass, MD
Enroll in LMS Course: WRHEPC-PEDSvSERIES-S2REC

•**Session 3** (recorded 10/13/2020 – 1hr):
Sentinel Injuries: When the Minor is a Major
Presenter: Jacqueline Collard, PNP
Enroll in LMS Course: WRHEPC-PEDSvSERIES-S3REC

•**Session 4** (recorded 10/27/2020 – 1hr)
Pediatric Emergency Airway Management
Presenter: Bree Kramer, DO
Enroll in LMS Course: WRHEPC-PEDSvSERIES-S4REC

•**Session 5** (recorded 11/10/2020 – 1hr):
Pediatric Shock: How to Tell if it is Sepsis or Trauma
Presenter: Amanda Hassinger, MD
Enroll in LMS Course: WRHEPC-PEDSvSERIES-S5REC

•**Session 6** (recorded 11/24/2020 – 1hr)
Pediatric Mock Code and Mock Trauma
Presenter: Tiffany Fabiano, MS, CPNP
Enroll in LMS Course: WRHEPC-PEDSvSERIES-S1REC

Enroll in LMS Course: PHI-202103

Region 2 PHTC- LogIn2Learn: Strategic Storytelling: Using Data to Tell a Story and Telling Stories with Data
Sponsored by Region 2 Public Health Training Center
Recorded February 2, 2021
Enroll in LMS Course: Reg2PHTC-L2L202102

Resources Available When Mass Effect Incidents/Casualties Happen
Sponsored by South Central Partnership
Enroll in LMS Course: SCP-104

IS-315: CERT and the Incident Command System (ICS)
Enroll in LMS Course: **FEMA IS-315**

IS-317: Introduction to Community Emergency Response Team
Enroll in LMS Course: **FEMA IS-317**

Additional Training of Interest:

NEW! Disaster Medicine: Sepsis Training Series
Sponsored by Sepsis Alliance Institute. Populations affected by disasters are exposed to a variety of health hazards such as trauma, burns, poor sanitation, and mass sheltering, all of which place them at increased risk of infection and sepsis. Target Audience: This activity has been designed to meet the educational needs of emergency responders, disaster medicine teams, including within U.S. Government, emergency planners, facility managers, occupational health and safety personnel, nurses, physicians, pharmacists, and other healthcare staff.

For more information, visit the [FLGEC website](#)

The **Finger Lakes Geriatric Education Center at the University of Rochester Medical Center** in partnership with the **Ithaca College Gerontology Institute** and the **National Center for Post-Traumatic Stress Disorder** are pleased to present this new online resource to support long-term care workforce during the time of the COVID-19 Pandemic response.

> "We know that our long-term care settings have been disproportionately affected by COVID-19 with high rates of infection and mortality of vulnerable residents, while the direct care workforce in these settings have been the unsung heroes providing compassionate care in incredibly challenging circumstances - staffing shortages, PPE shortages, limits on family visitation, and high rates of exposure and infection among health care workers. Our front-line workers deserve the best support and training in these challenging times."
>
> Thomas V. Caprio, MD, MPH, MS, CMD, HMDC, FACP, AGSF, FAAHPM
> Director, Finger Lakes Geriatric Education Center

The online module, **Stress First Aid for Long-Term Care,** is a self-care and peer support model adapted specifically for long-term care health care personnel.

MGT-470: Establishing Collaborative Case Management Services.
New instructor-led training
This course is designed to provide learners with information on collaborative disaster case management management processes and programs. Some of the areas covered in the course include the purpose of disaster case management, the role of stakeholders and partners, and strategies to effectively implement immediate and long-term disaster case management programs. The curriculum will include opportunities to develop stronger partnerships between the public and private sectors, provide checklist-based resources for use in a pre- and post-disaster environment, and best practices for enhancing collaborative case management services.
If you are interested in hosting this training in your community, please contact us at
crlcadmin@columbia.edu and put the course number (MGT-470) and your state in the subject line.

2019 Evacuation Plan Template Update
Recorded Sessions for Nursing Homes and Adult Care Facilities

Background

The Office of Health Emergency Preparedness (OHEP) is pleased to announce the release of the updated 2019 evacuation plan template. The 2019 template will serve as a revision to the previously released version.

Goal

To review the updates and revisions included in the updated 2019 Nursing Home and Adult Care Facility Evacuation Plan templates.

Target Audience

Nursing Home and Adult Care Facility staff responsible for emergency preparedness and evacuation planning

Note

Facilities are not required to adopt or use updated templates. It is strongly encouraged for facilities to review the updated documents and include in plan updates as needed or appropriate.

NYSDOH Faculty

Katharine Logan
Health Care Preparedness Coordinator I Office of Health Emergency Preparedness

Comprehensive Emergency Management Plan Training Online Training Module

Background

The purpose of the New York State Department of Health (NYSDOH) Comprehensive Emergency Management Plan (CEMP) Training is to provide personnel at adult care facilities across the State of New York with the information and tools to develop a CEMP to prepare for, respond to, and re-cover from natural and man-made disasters.

Training Objectives

- Facilitate staff familiarity with CEMP purpose, use, development, and implementation.
- Empower facilities to be self-sufficient for 72 hours after an incident.
- Enable facilities' timely determination and implementation of protective actions.
- Foster collaboration and coordination with facility emergency response partners
- Build the foundation for a risk-based CEMP and emergency preparedness program.
- Empower facilities to use the Incident Command System to respond to emergencies.
- Empower Facilities to identify critical information to protect and disseminate during an incident.

Target Audience

Nursing Home or Adult care facility personnel that will be involved in facility level emergency planning (strongly recommended for Administrators and Safety / Security / Plant Managers).

Prior completion of FEMA IS-100.C strongly encouraged.

Training produced by Hagerty Consulting, Inc.

Training Module

Training delivered though an interactive online module that can be found using the registration information below or by clicking here: OHEP-CEMPONLINE

Medical Countermeasures ClinOps On Demand Webinars from PHEEP

ClinOps-202108 August ClinOps Webinar

The August 2021 ClinOps webinar provides training and demonstration by New York State Department of Health Division of Epidemiology staff on how to identify and correct data integrity issues for COVID-19 vaccination Operations in CDMS and NYSIIS. As the volume of vaccination Operations becomes more manageable, it is critical that we take time to review and assure the accuracy of the vaccination records that we have created. Completing these quality control steps will assure that patients have the proof of vaccination they need, and that we have accurate data for reporting that we need. We will discuss strategies to identify and correct errors and demonstrate our tips and tricks on finding missing information to assure the accuracy and completeness of vaccination records.

ClinOps-202010 October ClinOps Webinar - CDMS v.7.0 Part II

This webinar will feature a presentation by NYS DOH Division of Epidemiology staff and provide further training on the new Countermeasure Data Management System (CDMS) Version 7.0 application and continued presentation of current functionality and enhancements.

ClinOps-202008 August ClinOps Webinar - CDMS v.7.0 Introduction

This webinar will feature a presentation by Julie Schenkman, Kevin Buettner, and Matthew De Lafayette from the DOH Information and Technology Services providing a preview to the new Countermeasure Data Management System (CDMS) Version 7.0 application planned for introduction this Fall.

ClinOps-201911 Review of Outcome Data for 2018-2019 Site Activation, Notification, Acknowledgement, Assembly and Facility Setup Drills

This webinar outlines the data from the BP-1X (2018-2019) Site Activation, Staff Notification, Acknowledgement and Assembly and Facility Setup drills that are completed in either HERDS or DCIPHER by all counties as a part of the BPR-10 deliverable. The goal is to provide background information on what data and information the drills provide us, and to take a step further by comparing across regions to determine potential gaps and drive future guidance and exercise development.

ClinOps-201910 Adverse Events: Mitigation, Identification and Reporting

The October 2019 Medical Countermeasure (MCM) Clinical Operations webinar will include the working definition of an adverse event and the prevention and mitigation strategies done through accurate medical screening and onsite quality review. The presentation will include methods to identify adverse events, including side effects, contraindications and administration/documentation errors. Follow up and reporting requirements will also be reviewed. A question and answer period will be made available

ClinOps-201907 Infection Control and Injection Safety at Points of Dispensing

The July 2019 Medical Countermeasure (MCM) Clinical Operations webinar will provide an overview of required clinical infection control practice standards at Points of Dispensing. This webinar will also highlight safe injection practices, recommendations for POD infection control procedures, oversight of infection control standards and recommendations for Just in Time Training.

If you are looking at a print version of this document, please search the www.NYLearnsPH.com LMS Course Catalog for the course numbers above

CLIMATE AND HEALTH COURSES

Heat and Health in New York State

Enroll in LMS: NYSDOH-Climate1	Intended to educate social service providers and community leaders in preventing heat's adverse health effects among vulnerable populations.

WIC and Climate Change in New York State

Enroll in LMS: NYSDOH-Climate2	Describes the impacts of climate change and what it may mean for WIC programs. Both courses provide evidence of the climate changing, how people may be affected, and resources or mitigation strategies in response to the changing climate.

Climate Change and Public Health 101 - Northeast Edition

Enroll in LMS: BRACE-Climate101	20 minute online course! This course focuses on the public health impacts from climate change that are of most concern to the Northeast and what local health departments can do to mitigate and prevent them.

NYS Department of Health: Climate & Health Profile (Originally Aired March 30, 2016)

Enroll in LMS: Reg2PHTC-Climate1	Presenter: Asante Shipp Hilts The webinar will describe the changing NYS climate, climate-related health impacts, vulnerable populations, methods for assessing vulnerability, challenges and opportunities, existing NYS initiatives and collaborations, and implementation of the NYSDOH Climate and Health Strategic Map.

Climate Change and Zoonoses Overview

Enroll in LMS: UASPH-CPHP-2016	This presentation provides an introduction and overview of climate change and zoonotic diseases, the potential impact of climate change on human and non-human animal health, vulnerable populations, and activities to address the risk including the One Health approach, mitigation, and adaption. Risks are summarized world-wide.

National Weather Service: Hazard Simplification Partner Webinar

Enroll in LMS: NWS-20200723	National Weather Service: Hazard Simplification Partner Webinar Sponsored by National Weather Service Originally Aired Thursday, July 23, 2020

Public Health Live! Climate Smart Communities: Connections With Public Health

Enroll in LMS: UASPH_PHL20190516	Speakers: Dazzle Ekblad, Climate Policy Analyst, Office of Climate Change, New York State Department of Environmental Conservation Neil Muscatiello, M. S., Research Scientist and Principal Investigator Climate Ready Cities and States Initiative/Building Resilience Against Climate Effects, New York State Department of Health

Climate Change and Health Equity: Tribal Challenges and Actions

Enroll in LMS: TPEH-20201215	The Tribal Public and Environmental Health Think Tank, in partnership with APHA and with support from CDC's National Center for Environmental Health/Agency for Toxic Substances and Disease Registry, invites you to join a conversation on climate and health in tribal communities.

Centers for Disease Control and Preparedness (CDC) - CERC, RAD, Packaging & Receiving, & SNS Courses

CDC-CERC-01

Crisis and Emergency Risk Communication (CERC)

Provider: Centers for Disease Control & Prevention
Course Updated: 6/26/2018
Average Completion Time: 2hrs
Continuing Education: 0.2 CEUs
Enroll in LMS Course #: CDC-CERC-01

At the conclusion of the training, the participant will be able to do the following:
- Explain Crisis and Emergency Risk Communication (CERC) principles.
- Describe the psychology of a crisis and the type of messages each audience needs.
- Explain how to tailor messages.
- Define core concepts of crisis communication planning.
- Explain the roles of the media and spokesperson.
- Describe the benefits of social media and mobile media devices.

SNS-101

SNS Overview

LMS Course Completion Requirement:
"Message" TRAIN Certificate to Course Administrator
Continuing Education: 1 CHES; 1 CME; 0.1 Continuing Nursing Education; 1 MCHES
TRAIN CE Course #: WB 2273 Course ID 1041004
Enroll in LMS Course #: SNS-101

The course is designed to provide basic background information and definitions of federal agencies, stakeholders and other partners that will help understand all SNS operations during a public health event. The SNS Overview Course will fill the professional practice gap by providing the states and local agencies with information to manage SNS assets that may be deployed to sites during a public health emergency. The participants will learn the levels of support provided by the SNS, and the response concepts, the planning functions needed for consideration and operational requirements for receiving, distributing and dispensing of SNS material.

SNS-103

Closed Point of Dispensing Considerations: an SNS Perspective

LMS Course Completion Requirement:
"Message" TRAIN Certificate to Course Administrator
Continuing Education: 1.5 CME; .14 ACPE-Contact Hours; 1.4 ANCC: Contact Hours Continuing Nursing Education; 1.5 MCHES
TRAIN Course ID 1055915
Enroll in LMS Course #: SNS-103

The Closed POD Planning course provides state and local agencies with information to manage Closed POD sites during a public health emergency. It covers planning functions for designing a system to quickly dispense prophylactic medications to the employees and their families. The course introduces common terminology and concepts of mass dispensing at the community level.
Some locations may use other terminology.

Centers for Disease Control and Preparedness (CDC) - CERC, RAD, Packaging & Receiving, & SNS Courses

CDC-RAD

Radiation Basics Made Simple

Average Completion Time: 1.5 hrs
Continuing Education: 0.1 CEUs, 1.4 CNEs, 1.5 CMEs
Enroll in LMS Course #: CDC-RAD

The Centers for Disease Control and Prevention, Radiation Stud-ies Branch announces the launch of *Radiation Basics Made Simple*, the first in a series of radiation preparedness training mod-ules. *Radiation Basics Made Simple* introduces participants to the fundamentals of radiation and radioactivity.

CDC-PSYCH

Psychological First Aid in Radiation Disasters

Average Completion Time: 1.25 hrs
Continuing Education: 0.1 CEUs, 1.2 CNEs, 1.25 CMEs
Enroll in LMS Course #: CDC-PSYCH

Psychological First Aid in Radiation Disasters is a self-study training that uses interviews conducted with experts involved in the Goiania and Three Mile Island incidents, and video scenarios that allow participants to observe how psychological first aid techniques can be employed in a variety of response settings.

CDC-MYTHS

Communicating in Radiation Emergencies: Myths of Radiation

Provider: Centers for Disease Control
Average Completion Time: 1 hr
LMS Course Completion Requirement: "Message" Certificate to Course Administrator
Continuing Education: 0.1 CEUs
Enroll in LMS Course #: **CDC-MYTHS**

Communicating in Radiation Emergencies: Myths of Radiation introduces participants to some common myths of radiation and identifies communications strategies to combat these and other myths. The training uses Person-On-The-Street interviews to iden-tify the myths and features a discussion between risk communication and radiation subject matter experts to set the record straight.

OBJECTIVES: At the conclusion of the session, the participant will be able to:
- Describe seven common misconceptions associated with radiation.
- Debunk seven misconceptions using science-based explanations.
- Discuss one strategy to communicate accurate information during a radiation emergency for each misconception presented.

Centers for Disease Control and Preparedness CDC) - CERC, RAD, Packaging & Receiving, & SNS Courses

CDC-PS2014

Packaging and Shipping Division 6.2 Materials Online Course

LMS Course Completion Requirement:
"Message" TRAIN Certificate to Course Administrator
Continuing Education: 2 CEUs
Course ID 1017204
Enroll in LMS Course #: CDC-PS2014

Who Should Attend:
This course is intended for those learners seeking recertification in packing and shipping of infectious substances (Division 6.2 materials). This course does not apply to individuals seeking initial certification.

Packaging and shipping Division 6.2 materials, such as patient specimens containing infectious materials and cultures, are regulated by U.S. and international transport agencies. Fines and penalties can be imposed against those who fail to comply with the applicable rules including proper classification and documentation of training, proper packaging, marking and labeling and proper shipping documentation. Updated for 2014, this intermediate-level online course, designed for individual study, is suitable for those seeking re-certification. Participants are provided with information useful for complying with regulations through use of instructional content and the opportunity to apply knowledge using realistic scenarios. This course should take approximately 2 hours to complete.

Objectives: At the conclusion of this program, the participants will be able to:

- Classify specimens as an exempt human or animal specimen or either category A or category B infectious substance.
- Identify basic packaging concepts and processes for exempt human and animal specimens, category A and category B infectious substances and dry ice.
- List the documents required to accompany packages containing category A and category B infectious substances.
- Describe the documentation process for category A and category B infectious substances including specific differences dependent upon mode of transportation.

RSS-101

Receiving, Staging, and Storing (RSS) Training Video

LMS Course Completion Requirement:
"Message" TRAIN Certificate to Course Administrator
Course ID 1017208
Enroll in LMS Course #: RSS-101

This 14-minute videoarchive provides an overview of receiving, staging, and storing (RSS) Strategic National Stockpile (SNS) assets in the event of a public health crisis. It is designed to pro- vide information to organizations and personnel involved in Strategic National Stockpile RSS functions.

Federal Emergency Management Agency (FEMA) Courses

FEMA IS-100.C

Introduction to Incident Command System

Provider: FEMA Independent Study
Course Updated: 6/25/2018
Average Completion Time: 2hrs
LMS Course Completion Requirement:
"Message" FEMA Certificate to Course Administrator
Continuing Education: 0.2 CEUs
Enroll in LMS Course #: FEMA IS-100.C

ICS 100, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS).

FEMA IS-200.C

ICS for Single Resources and Initial Action Incidents

Provider: FEMA Independent Study
Course Updated: 03/11/2019
On-line Course: Yes
Average Completion Time: 4 hrs
LMS Course Completion Requirement:
"Message" FEMA Certificate to Course Administrator
Continuing Education: 0.4 CEUs
Enroll in LMS Course #: FEMA IS-200.C

ICS 200 is designed to enable personnel to operate efficiently during an incident or event within the Incident Command System (ICS). ICS-200 provides training on and resources for personnel who are likely to assume a supervisory position within the ICS.

FEMA IS-700.B

National Incident Management System (NIMS) An Introduction

Provider: FEMA Independent Study
Course Updated: 6/25/2018
On-line Course: Yes
Average Completion Time: 3.5 hrs
LMS Course Completion Requirement:
"Message" FEMA Certificate to Course Administrator
Continuing Education: 0.4 CEUs
Enroll in LMS Course #: FEMA IS-700.B

This course provides an overview of the National Incident Management System (NIMS). The National Incident Management System defines the comprehensive approach guiding the whole community - all levels of government, nongovernmental organizations (NGO), and the private sector - to work together seamlessly to prevent, protect against, mitigate, respond to, and recover from the effects of incidents. The course provides learners with a basic understanding of NIMS concepts, principles, and components.

## FEMA IS-800.C

National Response Framework, An Introduction

Provider: FEMA Independent Study
Course Updated: 3/27/2018
On-line Course: Yes
Average Completion Time: 3 hrs
LMS Course Completion Requirement:
"Message" FEMA Certificate to Course Administrator
Continuing Education: 0.3 CEUs
Enroll in LMS Course #: FEMA IS-800.C

The course introduces participants to the concepts and principles of the National Response Framework. The goal of this course is to familiarize participants with the National Response Framework and the ways it is applied in actual response situations.
Course Objectives:
At the end of this course, you will be able to describe:
- the purpose, scope, organization, and underlying doctrine of the National Response Framework (NRF).
- the Response roles and responsibilities of all elements of the whole community.
- core capabilities for Response and the actions required to deliver those capabilities.
- coordinating structures and operational planning used to support emergency response.

Build your knowledge about COVID-19 and earn continuing education

cdc.gov/ProjectFirstline

Looking to earn continuing education (CE)? Project Firstline is excited to announce the launch of two new CE courses:

- Ventilation, Source Control, and Hand Hygiene – Learn how ventilation, hand hygiene, and source control keep germs from spreading in healthcare facilities.
- How COVID-19 Spreads – Understand how COVID-19 spreads, why infection control actions for COVID-19 focus on keeping respiratory droplets out of the air and away from other people, and why infection control actions for COVID-19 work for new strains of the virus.

If you haven't already, we also encourage you to check out our other CE courses on infection control:

- Introduction to Infection Control and Virus Basics
- Injection Safety
- PPE Basics
- Respirator Basics
- Environmental Cleaning and Disinfection Basics

You can find all courses at Training and Continuing Education Online (TCEO), and available CE includes CME, CNE, and CPE.

Earn a certificate of completion for watching *Inside Infection Control* episodes on CDC TRAIN. Launch the video from TRAIN to receive your certificate.

WE ARE **PROJECT FIRSTLINE**

The recommended healthcare
INFECTION CONTROL ACTIONS
