PRODUCT NAME (SHORT)

iHealth® COVID-19 Antigen Rapid Test

PRODUCT NAME (LONG)

iHealth® COVID-19 Antigen Rapid Test, FDA EUA Authorized OTC At-home Self-Test, Results in 15 Minutes with Non-invasive Nasal Swab, Easy to Use & No Discomfort

KEY FEATURES

FDA AUTHORIZED 15 MINS SELF-TEST

The test is a 15-minute self-test to detect nucleocapsid protein antigen from SARS-CoV-2. The test can be completed in the comfort of your own home without the need to ship your sample to a lab.

EASY TO USE ZERO DISCOMFORT

Test can be done by inserting only 1/2 to 3/4 inch with a simple non-invasive nasal swab, easy to use and zero discomfort. Step-by-step instructional videos are available in our app for easy following. (Installation of app is optional.)

FOR AGES 2 AND ABOVE

The self-administered test is recommended for individuals aged 15 years and older. Adult-collection is required for testing children 2-14 years old.

DETECT CURRENT AND NEW COVID VARIANTS

iHealth has completed in-lab testing on several heat inactivated variant strains and the results show that iHealth COVID-19 Antigen Rapid Test was able to detect the mutations.

GROUP TESTING MANAGING VIA MOBILE APP

The iHealth COVID-19 Test app allows the administrator of a small group to monitor and track the group members' test results when needed at school, work or event.

DESCRIPTION

The iHealth® COVID-19 Antigen Rapid Test is a lateral flow assay intended for the qualitative detection of nucleocapsid protein antigen from SARS-CoV-2.

This test is authorized for non-prescription home use with self-collected anterior nasal (nares) swab samples from individuals aged 15 years or older with symptoms of COVID-19 within the first 7 days of symptom onset. This test is also authorized for non-prescription home use with adult-collected nasal swab samples from individuals aged 2 years or older with symptoms of COVID-19 within the first 7 days of symptom onset.

This test is also authorized for non-prescription home use with self-collected anterior nasal (nares) swab samples from individuals aged 15 years or older, or adult collected anterior nasal swab samples from individuals aged 2 years or older, with or without symptoms or other epidemiological reasons to suspect COVID-19 when tested twice over 3 days with at least 24 hours (and no more than 48 hours) between tests.

SPECIFICATIONS

● 90 Packs/Carton, 2 Tests/Pack

UPC #	856362005890
SKU #	COV-AG-2-CTN
Model #	ICO-3000
Packs Per Carton	90
Tests Per Pack	2
Single Package Dimensions (LxWxH)	6.18 x 3.19 x 0.71 Inches
Single Package Weight (lb)	0.13
Carton Dimension (LxWxH)	13.1 x 11.8 x 10.8 Inches
Carton Weight (lb)	12.8

● 6 Packs/Carton, 40 Tests/Pack

UPC #	856362005968
SKU #	COV-AG-40-CTN
Model #	ICO-3000
Packs Per Carton	6
Tests Per Pack	40
Single Package Dimensions (LxWxH)	8.98 x 8.19 x 3.56 inches
Single Package Weight (lb)	1.46
Carton Dimension (LxWxH)	18.5 x 8.4 x 11.2 inches
Carton Weight (lb)	10.6

CLINICAL PERFORMANCE
