

ATTENTION RESIDENTS!

Every older adult living in affordable housing deserves assistance in accessing available aging services & social supports!

Older adults living in affordable senior housing sometimes have difficulty navigating the health and social support programs they are eligible for. **The Resident Assistant (RA) Program** would help more older adults in these buildings connect with resources and benefits that support healthy aging and independence!

WHAT IS A RESIDENT ASSISTANT?

A Resident Assistant (RA) would be an employee of an affordable senior housing building. **RAs would:**

- be an on-site, on-request resource of support and information to the residents who live in the building,
- assist residents with accessing public aging programs & Medicaid benefits,
- help with technology needs or online services,
- organize on-site social and wellness programs,
- and more!
