ADHC rate update: Not THEN but NOW

In November 2012, DOH advised nursing home administrators that their Jan. 1, 2011 and Jan. 1, 2012 adult day health care rates had been updated in conformance with all applicable legislation and would be forwarded for payment. These rates were actually transmitted for payment approximately one month ago. This means the 2011 and 2012 rate updates should be reflected in Medicaid payment cycles 1850 or 1851 (1850 has a check date of Feb. 11, check release date of Feb. 27; 1851 is a week later). DOH has advised us that the 2013 ADHC rate sheets should be available in March.
