

DOH posts MDS audit materials

DOH has posted some materials regarding OMIG audits of assessments associated with January 2012 census rosters on the Health Commerce System. The documents include a *Dear Administrator* letter introducing the reviews, a more complete outline of the audit process and the particular focus areas for each RUG that will be reviewed during audit. Background information on this issue from LeadingAge NY is available [here](#). OMIG has performed MDS audits at three Albany-area LeadingAge NY member homes. All three report having had a reasonable and fairly positive experience.
