

## **CDC Reports Regional Influenza Activity in New York State**

The Centers for Disease Control and Prevention (CDC) is reporting “regional” flu activity in New York State, one level below the “widespread” category. The CDC website offers comprehensive information regarding this year’s flu risks. Directors of nursing and infection control practitioners may refer to the [CDC](#) for updated recommendations and direction regarding vaccination, testing, infection control (isolation), antiviral treatment and antiviral chemoprophylaxis.
