

Who is LeadingAge New York?

LeadingAge New York is the undisputed leader in developing long-term care and aging services policy for the State of New York. Because of the respect LeadingAge New York has earned among policy makers, we are regularly included in budget and legislative discussions with legislative leaders, the governor's office and agency leadership. In addition, the Department of Health often turns to LeadingAge New York for guidance on a number of long term care issues, including rate-setting, reimbursement and regulatory issues.
