

CHHA Episodic Pricing Resources

The state intends to implement episodic payments for Certified Home Health Care programs starting on April 1, 2012. A November Webinar hosted by DOH reviewed the new methodology. The [Webinar slides](#) are a valuable resource in understanding the calculations and are attached below. Also attached is a [billing guidelines document](#) issued by DOH in early January as well as a [Dear Administrator letter dated December 19th](#) addressing some of the billing system changes being made.

The fourth attachment is the [CHHA Episodic Payment Template](#) that Leading Age NY has developed. Members can use this to model episodic payments by entering some key patient characteristics.
