

DOH Announces CMI Dates

DOH has provided formal notification that the two census roster dates for 2013 are Jan. 30 and July 31. Nursing homes will need to upload their January roster in mid-April while the July roster submission will be in mid-October. Despite delays and constraints to case mix adjustments, it remains important for members to ensure that their case mix calculation is as representative of their population as possible. With MDS audits approaching, MDS accuracy as well as accompanying documentation is more important than ever.
