

## **DOH to Reconcile Cash Receipt Assessment**

DOH will reconcile the 2010 cash receipt assessment and will update the per-day cash receipt assessment reimbursement paid in 2013 based on this reconciliation. The per-day reimbursement amount has not been updated for more than five years.

While the impact of the reconciliation will vary by home, the net impact is a positive \$30 million to providers. DOH intends to make payment adjustments based on the reconciliation in early 2013 and hopes to reconcile 2011 and 2012 assessment payments later in 2013.
