

Vital Access Provider Applications Due Oct. 17

The “mini-application” for Vital Access Provider and Safety Net funding is due to DOH by Oct. 17. Once DOH has received the mini-applications, those selected will be expected to develop a full proposal. More information and the guidelines on what should be included in the application are available on our website. Mini-applications should be submitted by email to BPACR@health.state.ny.us.

This funding is designed to provide temporary Medicaid rate adjustments to providers that are deemed “vital access providers” and may be adversely affected by closure, merger, acquisition, consolidation and restructuring of neighboring providers or their own facility.
