DOH Recoups 2007 Trend Factor Cut

ABSTRACT: DOH implements trend factor cut for 2007.

NYAHS's [February Fiscal Digest](#) advised members that the Department of Health (DOH) was in the process of revising 2007 rates to reflect the 25 percent trend factor cut mandated in the 2007-08 budget effective April 1, 2007. The negative adjustment affects both nursing home and adult day health care Medicaid rates. NYAHS has confirmed with DOH that the retroactive adjustment will appear in payment cycle 1595 for checks dated March 17, 2008. Statewide, this represents a \$24.9 million recoupment. Members should be anticipating this rate cut in their cash flow planning for payment cycle 1595.
