DOH Revising 2007 Nursing Home/Adult Day Health Care Rates

ABSTRACT: DOH to release revised 2007 nursing home rates reflecting trend factor reduction.

NYAHS has confirmed with the Department of Health (DOH) that they are in the process of implementing revised rates relative to last year's 25 percent trend factor reduction. The reduction, as mandated in the state's enacted 2007-08 budget, affects both nursing home and adult day health care trend factors effective April 1, 2007. Revised Medicaid rates have been approved and are being sent to eMedNY for processing. According to DOH, providers should receive the revised 2007 rate sheets in early March.
