Medicaid Rates

ABSTRACT: Medicaid rate release further delayed.

Please be aware that DOH has issued the following notice to your facility HPN coordinator.

“This email is to advise the administrator of your facility of the status of the 2002 rebased rates effective April 1, 2009 and the initial January 1, 2010 rates.

In a Dear Administrator letter dated October 30, 2009, you were informed of the delay in posting these rates until on or about December 7, 2009. Please be advised that the Department of Health has substantially completed the calculation of these rates and now anticipates that the rates will be posted on the HPN by the end of this week. Thank you for your continued patience.”

NYAHS is closely monitoring the situation and will advise members on further developments.
