RHCF Medicaid Rate Setting Clarifications

ABSTRACT: DOH issues rate-setting update related to passage of the 2009-10 state budget.

The passage of the 2009-10 state budget has generated many questions relative to the impact on 2009 nursing home Medicaid rates. DOH has issued a direct e-mail communication to providers designed to address some of these concerns. NYAHSA is currently in the process of analyzing the communication and will provide members with additional clarification as warranted. Members who have not already seen it should look for the e-mail from DOH (subject heading: “2009 Rate Setting Updates for Nursing Homes”). For member convenience a copy of the information is also available by [clicking here](#).
