CHRC Change in Signature Requirement

ABSTRACT: Criminal background check signature requirement changing.

The Criminal History Record Check (CHRC) program has issued a *CHRC Alert* entitled “*Change in Signature Requirement.*” The initial/expedited application form (form 103E) no longer requires a signature and the individual completing the form only has to attest to certain information. This change is expected to eliminate 2-4 days of processing time, resulting in a faster employment determination and less paperwork for the Authorized Person. Expedited results may be available in less than one week. Initial requests will be processed based on receipt of fingerprint cards and payment. The CHRC Alert is available on the Health Provider Network (HPN) or can be accessed by clicking [here](#).
