Life Safety Code

ABSTRACT: AAHSA provides electronic access to NFPA Life Safety Codes.

Because CMS enforces an edition of the Life Safety Code older than the current NFPA edition, many of the standards referenced by the 2000 Life Safety Code are no longer available for sale or posted on the NFPA Web site. AAHSA has arranged to post this material. Availability of these documents should assist in assuring that any Life Safety Code deficiencies are cited correctly; provide access to the requirements necessary to correct deficiencies; and assist in the development of plans of correction. The information can be accessed at:

http://www.aahsa.org/pLogin.aspx?src=ATWNFPALSC_CodesandStdsforAAHSAMembs.pdf, enter “sdiego” as the password.
