Paid Feeding Assistant Curriculum

ABSTRACT: DOH changes RHCF paid feeding assistant curriculum.

DOH has posted on the Health Provider Network (HPN) a revision to DAL07-11 (Paid Feeding Assistants). The revision on page 3 of the document is as follows, “***However, an individual hired by the family as a companion for the resident cannot provide nutrition or hydration unless the companion has completed the paid feeding assistant program.***” The revision addresses some inconsistencies in the prior curriculum and reiterates DOH policy that the role of a family-hired companion is very limited. The curriculum is posted on the HPN at <https://commerce.health.state.ny.us/hpn/>.
